
Vehicle Safety Belts

911.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure that all members of the District wear safety belts while operating or riding in district vehicles or privately owned vehicles while conducting district business. The use of seat belts and other safety restraints significantly reduces the chance of death or injury in case of a traffic accident (625 ILCS 5/12-603.1(a)).

911.2 POLICY

It is the policy of the Richmond Township Fire Protection District that all members shall wear properly adjusted safety restraints when operating or positioned in any vehicle owned, leased or rented by this district, or in any privately owned vehicle while on-duty. The member driving such a vehicle shall ensure that all occupants, including any non-members, are properly restrained, unless the delivery of life-saving measures prohibits the use of a safety belt (625 ILCS 5/12-603.1(b)(10)).

911.3 INOPERABLE SAFETY BELTS

No person shall operate district vehicles in which the safety belt in the driver's position is inoperable. No person shall be transported in a seating position in which the seat belt is inoperable.

No person shall modify, remove, deactivate or otherwise tamper with the vehicle safety belts, except for vehicle maintenance and repair staff, who shall do so only with the express authorization of the Fire Chief.

Members who discover an inoperable restraint system shall report the defect to the appropriate supervisor. Prompt action will be taken to replace or repair the system.
